Introduction

Crown's Career Direct Assessment is a revolutionary personal assessment tool. This self-discovery tool is a one-of-a-kind assessment using seven key foundational Biblical principles of work and helps "synthesize" four key areas (personality, interests, skills and values) to help the client to discover their unique God-given design for work. I come along side working professionals who are nearing retirement, thinking about starting a business or thinking about changing careers.

Seven Foundational Biblical Principles:
1. Matter of Stewardship - using well the work-related gifts, skills and strengths entrusted to us by God (1 Cor 4:2)
2. The Origin of Work is God - God is a worker, so we are also a worker, because we are made in His image (Genesis 1:1)
3. All Work has Meaning and Dignity - All work, both sacred and secular, intellectual and manual, serve God (Col 3:17)
4. God has a plan for each person's life - Career Direct is rooted in the belief that we are not created randomly (Jer 29:11 & Ephesians 2:10)
5. Our work is a stage for ministry and witness - Our work is a platform for ministry (Matt 28:19 & Matt 5:16)
6. Christians are to be excellent in their work in order to glorify God - Excellence comes from development of our God-given talents (Ps 16:13 & 22:29)
7. God is the final authority on our work - we need to dedicate our work to God and depend on Him to give us strength and resources to do each job / assignment (Matt 6:19-21)

Credentials

ACBC Certified Biblical Counselor (Association of Certified Biblical Counselors)
