Dear [Recipient Name],

I am excited to apply for the Registered Nurse position in the Women's and Children's department at Sarah Bush Lincoln. I am currently a nursing student and continuing to learn about nursing. In clinical, I have been able to work with many patients and enjoy helping them through their illnesses. During my clinical experiences, I enjoyed working with pediatric patients and labor and delivery patients. I would love to continue to work with pediatric and labor and delivery patients.

While at Lakeview college of nursing, I have worked hard to learn and retain as much coursework information possible. While at clinicals, I have been able to experience most hospital departments. I have worked on three east at the hospital for over two years now as a care partner. This floor is medical-surgical patients, especially post-operative patients. I have learned so much while working, including communicating and making my patients as comfortable as possible. I have been able to leave a caring impression on many patients and have had wonderful comments about my care at discharge. I also learned how to communicate with my fellow care partners, nurses, and many more hospital staff.

I have learned lots at clinics and work as a care partner, which I will carry to my future career. I cannot wait to continue learning and growing every day as a nurse. I am also very excited to give outstanding care to my patients. I look forward to hearing from you and being a part of your team.

Sincerely,

Claire Zumbahlen
