Outcomes

Acute/Chronic	No of Points	Individual Score	Description
Acute	36	94.4%	A disease, condition or injury characterized by a relatively sudden onset of symptoms that are usually severe. An episode of acute disease results in: recovery to a state comparable to the client's condition of health and activity before the disease; progression into a chronic illness; or death.
Chronic	2	100.0%	A disease or condition that persists for 6 months or more, or in which a cure is not expected. Chronic diseases generally cannot be prevented by vaccines or cured by medication, nor do they just disappear.

Bloom's Taxonomy	No of Points	Individual Score	Description
Understand	1	100.0%	Explain the meaning of information.

Body Function	No of Points	Individual Score	Description
Cognition and Sensation	1	100.0%	The anatomical structures (brain, central and peripheral nervous systems, eyes and ears) and body functions that support perception, interpretation, and response to internal and external stimuli.

BSN Essentials	No of Points	Individual Score	Description
Interprofessional Communication and Collaboration	1	100.0%	The need for nurses to be able to function as a member of the healthcare team while promoting an environment that supports interprofessional communication and collaboration with the goal of providing patient-centered care.

Clinical Areas	No of Points	Individual Score	Description
Mental Health	1	100.0%	Ability to apply nursing knowledge to the care of clients with mental health disorders. Topics include foundational mental health concepts (e.g., therapeutic communication, therapeutic milieu, legal/ethical issues), care of clients experiencing psychobiologic disorders or psychiatric emergencies, and care of clients receiving traditional nonpharmacological and psychopharmacological therapies.

NCLEX RN	No of Points	Individual Score	Description
RN Psychosocial Integrity	1	100.0%	The nurse directs nursing care to promote and support the emotional, mental and social well-being of clients and significant others.

Individual Performance Profile
N313 Fall 2022 Exam 1 - Danville

NLN Competency	No of Points	Individual Score	Description
Spirit of Inquiry	1	100.0%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

Nursing Process	No of Points	Individual Score	Description
RN Assessment	1	100.0%	The assessment step of the nursing process involves application of nursing knowledge to the collection, organization, validation and documentation of data about a client's health status. The nurse focuses on the client's response to a specific health problem including the client's health beliefs and practices. The nurse thinks critically to perform a comprehensive assessment of subjective and objective information. Nurses must have excellent communication and assessment skills in order to plan client care.

QSEN	No of Points	Individual Score	Description
Patient-Centered Care	1	100.0%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.

Thinking Skills	No of Points	Individual Score	Description
Foundational Thinking	40	87.5%	The ability to comprehend information and concepts. Incorporates Blooms Taxonomy categories of Remembering and Understanding.
