Medication Administration Part II Demo (3.5 hrs)

4/28/2020 10:00 - 17:30

This course is taught by STAR Services RNs. Participants complete a written test and demonstration of medication administration. This course, in conjunction with Medication Administration Part I online, meets 245D requirements for medication administration training.

The following were successfully demonstrated by the participant: (1) Oral medication (tablet, capsule, lozenge) - bottle and bubble pack; (2) Oral liquid medication; (3) Eye medication (drop and ointment); (4) Ear drop medication; (5) Topical and transdermal medication; (6) Metered dose inhaler.

This training is not a certification of the participant's competency by STAR Services. Assurance of the participant's skills and competencies is the responsibility of the employing company. Some companies may require a participant to demonstrate competency of the medication demonstration skills on/offsite following this course. This course meets 245D requirements for medication administration training.

Instructor Credentials: STAR Services is a training, education, staffing, consulting, and business development resource for social service agencies, individuals, families, social service professionals, schools, and government agencies. STAR Trainers have a combined experience of over 100 years of supporting individuals with various disabilities and mental health conditions in a variety of settings. All curriculum has been developed by a team of QDDPs, mental health practitioners, and a licensed social worker, along with other experts in the field.
