Author Research Project

Name:_____

Directions: Research the author you were assigned in class. You may use books, websites, etc. to gather information about your author. Please have a parent present to assist with navigating website surfing as you narrow down appropriate sites for your research. You may record your information on this paper. If you need more space, staple the paper you use to record information to this one. Answer each question to the best of your ability using the outline below (you can write on the back). Some information may not be available depending on your author or literary period. If that is the case, leave the space blank. **Use this outline, along with a poster or prezi/power point to present on Friday, October 7**. Remember, visuals should aid you as you speak, so no complete sentences should be used unless it is a quote. Otherwise, use bullet points to help guide you as you present pictures and/or videos. You will turn in this paper when you present, along with showing your slide show.

My Author:_____

Year of birth/death (include a picture of the author in your presentation with these dates):

2-3 sentences about their childhood:

What they are famous for:

An interesting story/fact about them:

The genre they wrote in and/or a quote from one of their works you found interesting (you should use a visual of this with your presentation):
