

**Daily Refrigerator
Temperature Log**

- When the temperature is inside normal limits, staff should replace the thermometer and ensure that the door remains closed
- When the temperature is outside the acceptable range, write the temperature on the upper right section of the box
- Staff shall recheck the temperature 2 hours after the first check and document the 2nd temperature on the bottom left section of the box
- If the 2nd temperature is outside the acceptable range, contact maintenance via work order

Name of Home: BSIS Ossiner, Bob Fridge Month: February 2021

Place your initials in the box that represents the temperature of the refrigerator at 6:00 a.m.
