Medication

Administration In-Service and Evaluation

	must also be reported to recipient rights as medication error verbally and then followed up with an event report	✓																	
	d. Location of all medication: Internal, External, Refrigerated, Controlled Substances, PRN's. Medications are separated. Location of: High Alert Board, Sharp's container, Medication posting binder, Prescription Book, Medication Book.	✓																	
	c. Area is clean, organized, and locked.	✓																	
2	DMA washes hands before administering medications and between each Resident when a sink is in the medication room. If not, wash hands before and between each 3 rd person, always sanitizing between each. Sanitizing and wearing gloves is never a substitute for handwashing. Masks should be worn at all times when out of the medication room when required	✓																	
3	Medication keys are retained by DMA. When completing DMA change complete appropriate documentation. This is to be completed at shift change and the staff must attest that all medications and event reports written, when applicable	✓																	
4	A resident is identified per facility policy and procedure before administering meds. At least 2 patient identifiers per Joint Commission National Patient Safety Goals.	✓																	
5	All medications require a prescription including lotions, creams, powders, and OTC medication.	✓																	
6	Vital signs are taken per facility policy before administering medications (if applicable), always on cardiac and BP medications	✓																	
	a. If Pulse and BP are required, hands and equipment are washed per facility policy	✓																	
	b. Follow vital range guidelines unless otherwise specified with a written prescription by the prescribing physician.	✓																	
7	c. Beacon vital sign ranges are as follows: Temperature 96-99, Pulse 50-100, Respirations 12-20, Low blood pressure 90/50 or below, High blood pressure 160/90 or higher	✓																	
8	Medications Administration per facility policy and procedure: to include a review of the '6 Rights'. Right, Resident, Right Route/Method, Right Medication, Right Time/Date, Right Dose, Right Documentation. Medication administration should not be interrupted, do NOT rush.	✓																	
	a. Medications are properly removed from container/blister pack and (.) dot is placed in the appropriate box on MAR. If on EMAR a check (☑) is placed in the appropriate box.	✓

Medication

Administration In-Service and Evaluation

	b. Liquid medication is poured at eye level on a flat surface, with palm covering label of the stock bottle	✓							
	c. DMA verifies medication and strength with an order as transcribed on medication record per facility policy and procedure. Note: Strength and dose are not always the same.	✓							
	d. Observe Resident to ensure medication is swallowed. If (ODT) disintegrating medication is given, place in a separate cup and ensure medication dissolves.	✓							
	e. Offer adequate and appropriate fluid with medication, full glass of water unless otherwise ordered. Note: Any fluid restrictions, special instructions (nectar thick, etc.), or potential adverse fluid interactions (grapefruit juice)	✓							
	f. DMA should initial the medication the first time they use it at the top of the bubble pack. Initial and date in back.	✓							
	g. Medication record is signed immediately after administration of same. Add initials to box on MAR and complete back page or on EMAR choose Pass selected. Choose exceptions if needed and document. Check for any blanks on MAR or EMAR and utilize a Late med pass or proper documentation. Any exception requires a misc. note to be completed. This should be completed at every shift change	✓							
	h. Controlled substance record is signed immediately after administration of same. The controlled count is done at DMA change and when administering medication.	✓							
	i. Verify no additional MAR pages have been added, check the high alert board and shift change agenda.	✓							
	j. Infection control technique is reviewed, Handwashing and Universal Precautions.	✓							
9	Medication via gastric tube administered per facility policy and procedure. If applicable Medical will provide hands-on education, support, and training. <ul style="list-style-type: none"> ▪Resident is properly positioned, at a 45° sitting angle ▪Tube is checked for placement and patency ▪Tube is flushed before between and after medications are administered 	✓							
10	Injections are administered by the Resident if there is a physician and psychiatrist order present, or DMA, per facility policy and procedure	✓		9					
	a. Syringes and needles are disposed of in a sharps container, by the person giving the injection (should be the resident, unless otherwise ordered by PCP) without recapping. Sharp's container must be dated 90 days out for expiration once you begin using.	✓							
	b. Proper glucometer testing is observed. Determination of competence re: accurately perform and read glucometer testing results. Still must remain with resident and verify accurate information and document.	✓

Medication

Administration In-Service and Evaluation

	c. Insulin Pen and vials are to be dated 28 days out once they are open or used. Pay special attention to storage instructions. Pens are refrigerated before first use. Vials are refrigerated. Bottles and pens must be labeled with the expiration dates	✓							
11	DMA crushes medication according to facility policy and procedure ONLY with written physician's orders. Note: Does it specify in pudding, yogurt, applesauce, and follow orders.	✓							
12	DMA administers eye and ear medication according to facility policies and procedures.	✓							
13	Inhalers should be disinfected between use. If multiple inhalers are used separately by 5 minutes. Always swish and spit after steroid inhalers to prevent infection.	✓							
14	Medication prescription, label, and MAR should all match. Generic and Brand Names should be on the label. Prescriptions can be verified in the binder in the medication room and/or NextStep.	✓							
15	When a resident is leaving for an LOA ensure you are completing the Release of Responsibility for Medication, if 2 nd staff is available best practice would be to have both staff count medication being released. This would be the same process upon return. Ensure staff and party it was released to sign upon leave and return. *Send all medication including PRN's	✓							
16	When a resident is leaving on an outing or signing out, ensure they are taking their epi-pen, rescue inhaler, and any other applicable medication and completing appropriate documentation. *Sunblock if applicable	✓							
17	Residents' rights are observed. Residents have the right to privacy. Rights to receive their medication as prescribed and right to refuse medication.	✓							
18	Location, Procedures, and Documenting for administering PRN including checking history and completing follow-up. PRN medication must be administered as prescribed for a specified reason.	✓							
19	DMA follows facility policy and procedure for medications refused or withheld. (ER/ IR written as applicable along with misc. note)	✓							
20	Medications are administered within the time frame per facility policy and procedure. There is a 1 hour before and 1 hour after the time frame for medication administration. Once outside the time frame, there is an additional 30 minutes before you must contact medical to receive approval to administer medication.	✓							
21	Medication errors are reported to Home Manager, Regional Nurse, and prescribing physician. An IR/ER and misc. note must be completed before the end of the shift. If medication is given to the wrong resident contact poison control immediately followed by medical.	✓
