

Name: Yvonne Albert

Module: Tissues

Test topic: My structures/Histology

Test type: Multiple choice

Score: 14/14

Percent correct: 100%

Date: 1/24/20

Time: 2:28 PM

The following structure(s) were correctly identified. Use the search feature in Anatomy & Physiology Revealed to review the structure(s).

A band

Axon

Branched cardiac muscle fiber

Central canal of osteon

Dendrite

Erythrocyte

I band

Intercalated disc

Leukocyte

Longitudinal smooth muscle fiber

Marrow cavity in spongy bone

Neuron

Nucleus of cardiac muscle fiber

Platelet
