

Hi my name is Misty Ahmed. I am currently taking the Addiction Counseling program. I am a returning student. I had so much going on in my life before when I attended Beal College the first time that I had to drop out. I am hoping that I will be able to finish the course and at least earn a certificate and possibly go on and earn a degree. I am in recovery myself and I am hoping that I can help others that are dealing with addiction themselves. I have two children that I would like to give knowledge to about Addiction and recovery. There is a real problem out there in the world with addiction, and not only addiction to drugs, but alcohol, gambling and many others. I am hoping that I will be able to leave Beal College with the utmost understanding and I will be able to work in the field and help the many people that are in need. I would like to be able to learn not only to help others but also help myself. I am very excited to learn everything that I can.
