My topic for my research paper is going to be “How do abusive relationships effect the abused women? And how does this affect her future? I am survivor of a very abusive relationship. I am just now starting to process everything. At the time I just stuffed it and kept going. It’s all I could do at the time. Notice it doesn’t say victim? I am not a victim. I am a survivor. I want to research its effects women, their future relationships, their confidence, and their future in general.
