Grading Rubric for Projects.

Grade	Criteria	Comments
90%-100%	Correctly completed assignment to excellent work that exceeds the assignment	This may include code improvements that have not been covered in class
80%-89%	The work may contain 1-3 errors	The errors do not reflect major misunderstanding of concepts
70%-79%	The work contains a major error or more than 3 moderate errors	Major error is the error that reflects misunderstanding of a basic concept
60%-69%	The work contains several major errors, however the structure of the assignment demonstrates that the student is aware of the basic concepts emphasized	Correct structure of the assignment means that all required categories are present although their format may not be correct
0-59%	Incorrect assignment demonstrating total disconnect from the topics taught and/or plagiarism	The structure of the assignment lacks coherence and/or connection with the topic at hand and/or plagiarism
