

# Careers in Psychology

## *Group Project*

For this assignment you will need to make use of the internet, powerpoint and video making software (i.e. Zoom, Smartphone app(s), etc.). As a group you will research the assigned career/subfield in psychology and discuss the topic.

Next, you will go in depth on this field discussing/answering the following questions:

1. Provide a brief overview of the subfield. What is the primary focus of the subfield?
2. What type of education/training is required?
3. What does this field entail?
4. What are pay rates for this area of study? Compare and contrast rates of at least four states. Be sure to look at the Northeast, Southeast, Midwest, and West coast. Feel free to throw career potential for another country in the indicated field.
5. What are the number of employees in the field? Is there a difference in the employee numbers/career opportunity based on local? Provide a brief explanation.
6. What these individuals typically do on a daily basis?
7. Other additional details that might help your audience understand the significance of this career area.

**Submission instructions:** Each group will create a powerpoint presentation. Each member of the group will be responsible for at least one of the above questions. The group member will create the slide containing the assigned information. Once you all have completed your slide(s), you will then send to the identified group leader. The group will compile the slides into one assignment. Once the powerpoint presentation is compiled the group will meet via Zoom to record their presentation of the information. During the presentation each group member will state their name before beginning to present their portion of the information.

Please remember teamwork makes the dream work. EVERYONE is expected to pull their own weight as the assignment. There are parts of the information that will be graded the same (arrangement or setup of

powerpoint presentation. However, you as an individual will be graded separately on how you present the information.

The assignment/video will be submitted by **EACH** group member during module 6. There is a dropbox titled "Group Project" where you will submit the assignment. Please note that all group members must submit the same assignment. Submitting different assignment is an indication that there was no active teamwork. Failing to submit the same assignment will negatively impact the grades of the group.
