

**Lab Equipment Quiz**

1. Choose the correct answer for each question. (1 point)

- evaporating dish
- crucible
- weighing boat
- glass plate
- test tube

2. Choose the correct answer for each question. (1 point)

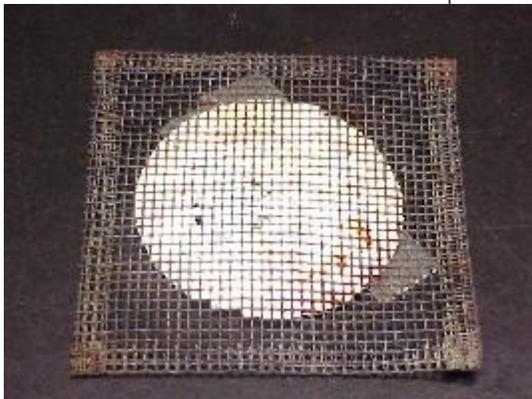

- graduated cylinder
- beaker
- florence flask
- volumetric flask
- erlenmeyer flask

3. Choose the correct answer for each question. (1 point)

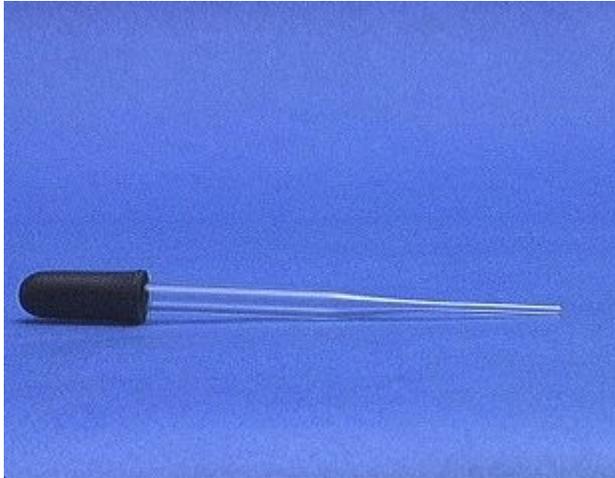

- spatulas
- beaker tongs
- test tube holder
- crucible tongs
- forceps

4. Choose the correct answer for each question. (1 point)

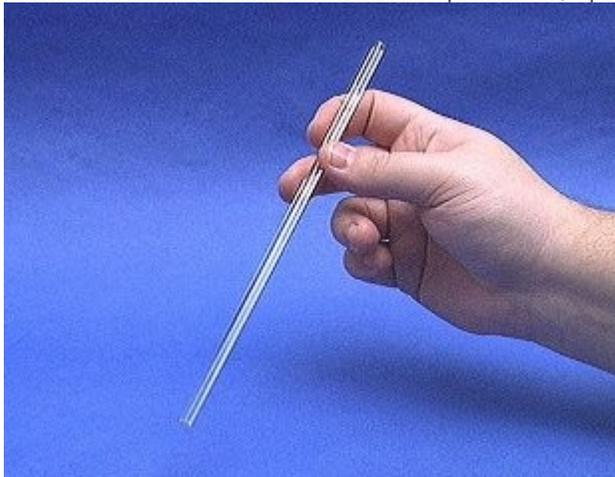

- ring stand
- test tube rack
- wire gauze
- iron ring
- clay triangle

5. Choose the correct answer for each question. (1 point)

- dropper
- pipet
- funnel
- wash bottle
- stir rod

6. Choose the correct answer for each question. (1 point)

- pipet
- stir rod
- dropper
- funnel
- wash bottle

7. Choose the correct answer for each question. (1 point)

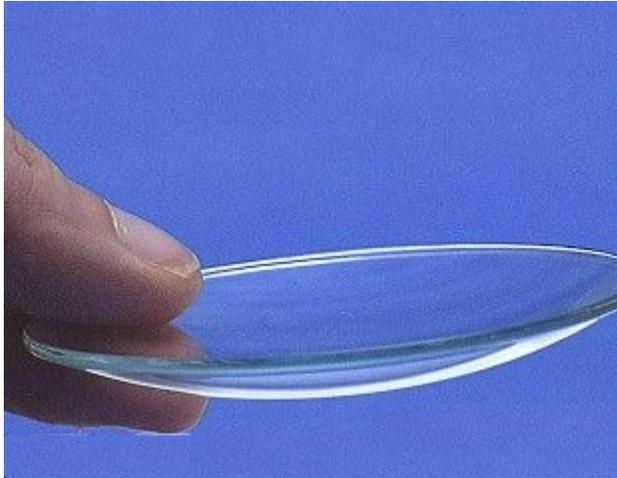

- test tube holder
- beaker tongs
- spatula
- crucible tongs
- forceps

8. Choose the correct answer for each question. (1 point)

- clay triangle
- utility clamp
- ring stand
- wire gauze
- iron ring

9. Choose the correct answer for each question. (1 point)

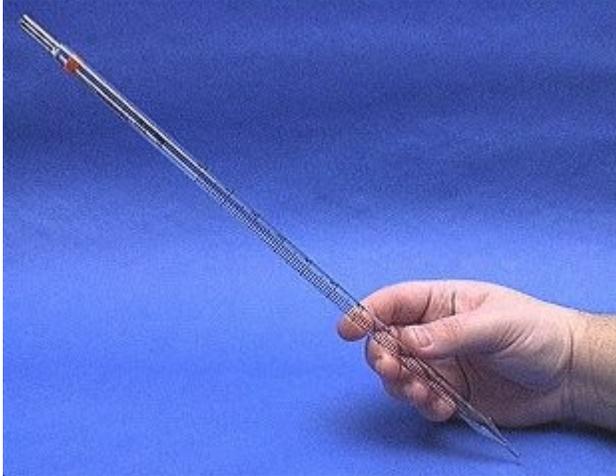

- weighing boat
- glass plate
- crucible
- watch glass
- test tube

10. Choose the correct answer for each question. (1 point)

- water trough
- crucible
- glass plate
- test tube
- weighing boat

11. Choose the correct answer for each question. (1 point)

- water trough
- pipet
- glass plate
- test tube
- weighing boat

12. Choose the correct answer for each question. (1 point)

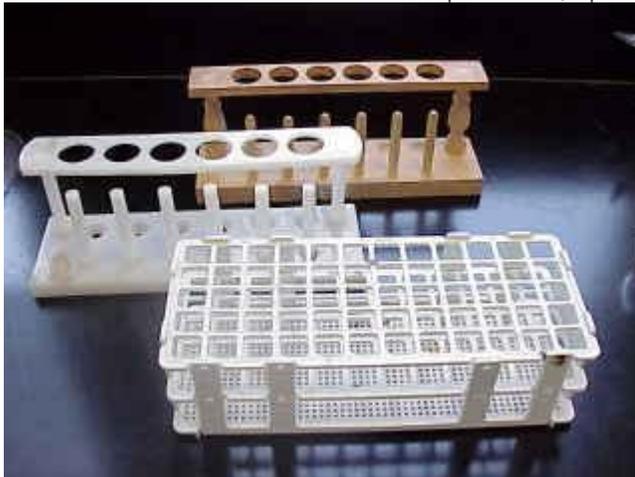

- florence flask
- erlenmeyer flask
- graduated cylinder
- beaker
- volumetric flask

13. Choose the correct answer for each question. (1 point)

- test tube
- glass plate
- weighing boat
- water trough
- crucible

14. Choose the correct answer for each question. (1 point)

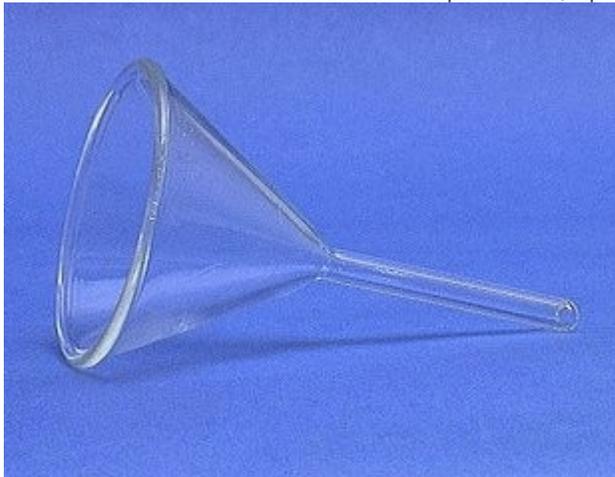

- wire gauze
- ring stand
- test tube rack
- iron ring
- wash bottle

15. Choose the correct answer for each question. (1 point)

- wire gauze
- ring stand
- test tube rack
- iron ring
- wash bottle

16. Choose the correct answer for each question. (1 point)

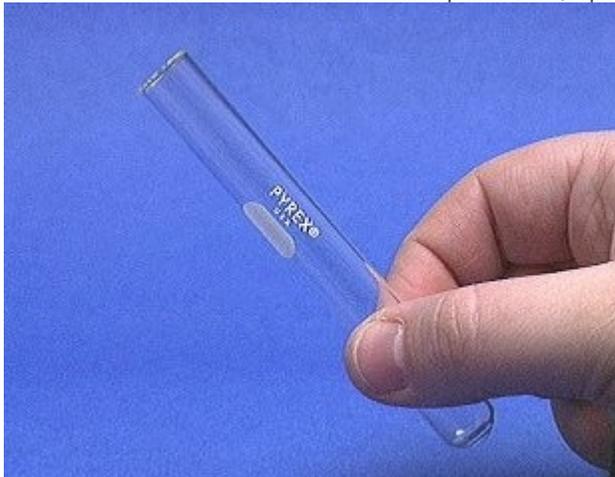

- wire gauze
- ring stand
- test tube rack
- funnel
- wash bottle

17. Choose the correct answer for each question. (1 point)

- graduated cylinder
- florence flask
- erlenmeyer flask
- volumetric flask
- beaker

18. Choose the correct answer for each question. (1 point)

- graduated cylinder
- test tube
- erlenmeyer flask
- volumetric flask
- beaker

19. Choose the correct answer for each question. (1 point)

- graduated cylinder
- test tube
- erlenmeyer flask
- volumetric flask
- florence flask**

20. Choose the correct answer for each question. (1 point)

- graduated cylinder
- test tube
- erlenmeyer flask
- Bunsen burner**
- florence flask

21. Choose the correct answer for each question. (1 point)

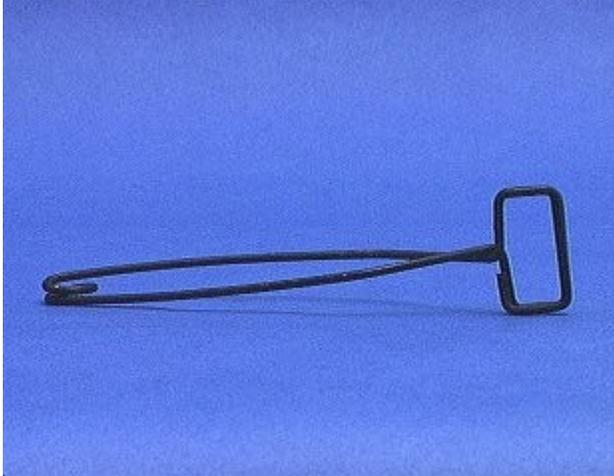

- beaker tongs
- forceps
- test tube holder
- spatula
- crucible tongs

22. Choose the correct answer for each question. (1 point)

- beaker tongs
- forceps
- test tube holder
- test tube brushes
- crucible tongs

23. Choose the correct answer for each question. (1 point)

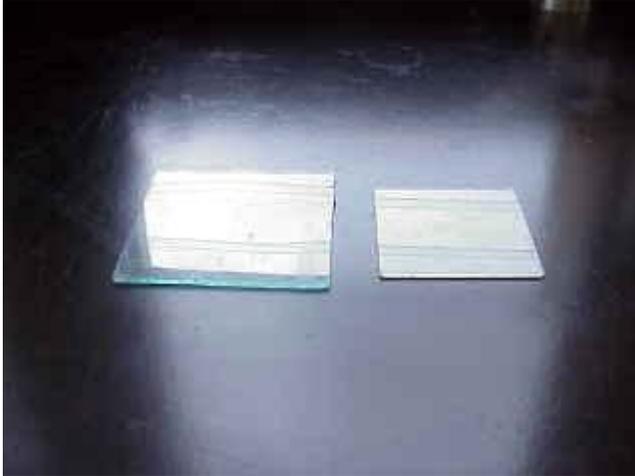

- beaker tongs
- forceps
- test tube holder
- test tube brushes
- crucible tongs

24. Choose the correct answer for each question. (1 point)

- water trough
- forceps
- test tube holder
- test tube brushes
- crucible tongs

25. Choose the correct answer for each question. (1 point)

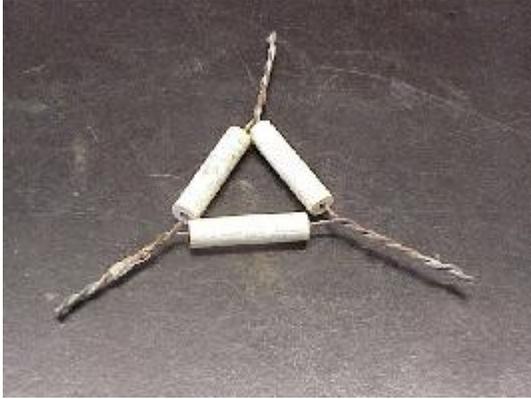

- water trough
- forceps
- test tube holder
- glass plate
- crucible tongs

26. Choose the correct answer for each question. (1 point)

- balance
- scale
- masser
- weigher
- analog scale

27. Choose the correct answer for each question. (1 point)

- ring stand
- wire gauze
- clay triangle
- test tube rack
- iron ring

28. Choose the correct answer for each question. (1 point)

- wire gauze
- test tube rack
- ring stand
- iron ring
- clay triangle

29. Choose the correct answer for each question. (1 point)

- wire gauze
- test tube rack
- ring stand
- iron ring
- clay triangle

30. Choose the correct answer for each question. (1 point)

- test tube holder
- beaker tongs
- spatula
- crucible tongs
- forceps
