Exploring Countries from “Dollar Street”

Online at [“Dollar Street,”](#) go to [Families in the World by income](#). In the first drop-down, make sure [Families](#) is selected. In the second one, make sure [the World](#) is displayed (you may need to click on [Show all countries](#) and then [Ok](#) in order to achieve this).

Fill out the table below based on the countries that you see in one row.

Country	Monthly Income (U.S. Dollars)	Observations from Photos
Zhakta, Zimbabwe	\$42	This household holds 3 family members a husband , wife and child. This house doesn't offer a-lot of basic necessities that a normal house would have such as electricitiy , running water or toliet. farmers
Murad, Jordan	\$7,434	This family is made up of business owners , which makes thier lifestyle easier than most. They own a 3 bedroom house and highend items as well.They also have accessibly to basic needs.
Sdambulyak, Ukanie	\$10,090	This family has a fortunate lifestyle compared to most families. They have a large family made of 5. As the father works his business , his wife stays home with the kids.
Juan Caballero, Spain	\$7,639	This homeowner is living a great lifestyle single .He doesn't have to worry about electricity , running water.His doctor occupation served him well.

Pulling Data on International Human Development Indicators

In the [International Human Development Indicators](#) data tool, look up the following six characteristics for two countries you looked at in Dollar Street, and complete the table below:

- Health → Life expectancy
- Gender → Maternal mortality ratio
- Demography → Dependency ratio, young age
- Education → Expected years of schooling
- Two other items of interest (same for both countries)

Suicide rate female
Mobile phone sub.
per 100 people

Country (name)	HEALTH INDICATORS					
	Life Expectancy (years)	Maternal Mortality Rate (per 100,000)	Dependence Ratio	Expected Years of Schooling (years)	Your Choice	Your Choice
Spain	83.4	5	29.4	17.9	3.1	115.9
Ukraine	72	24	24.3	15.1	4.7	122.6
