Hi, my name is Daishauna Leacock and I am a senior at Benedict College. I recently worked at a rehabilitation center in Palmetto, Florida during the summer prior to returning to school. While working at the rehab center my interaction with the nurses on staff allowed me to see first-hand how my major in biology will help me become a Nurse Practitioner specializing in Pediatrics. I am a responsible, trustworthy, and determined person who stays focused on all tasks assigned and completed to the best of my abilities. Thank you for your time and I hope to hear from you soon.
