

Hey, Lower Richland supervisor

Today I have organized the money due to the 250,000 budget I have. This should help you and the team out with how your going to manage the money. At the end of the day if It not a lot of money you have to remember I have a budget I'm working off of but this is how I will adjust the money: 50,000 insurance, 20,000 insurance, 20,000 equipment, 30,000 Transportation, 20,000 Marketing, 40,000 Operations, 40,000 Maintenance and 30,000 for Officiating. I believe this will best suite the team through out the year and possibly have money left over within those departments.

THANK YOU.
