To lay a foundation for reading the Pentateuch, write a brief definition of the following terms. Explain their relationship to the Hebrew Culture, and how the understanding of each helps Bible students today.

1. Canaan

The Canaanites in general are called Kharu. It is most probable that they obtained it through the mediation either of the Canaanites or of the North Arabian. The Biblical usage appears to show that the terms "Canaanites" and "Armorites" were used synonymously. The former being characteristic of Judaeans, the latter of Ephraimite and Deuteronomistic writers. A distinction is sometimes maintained, however when the Armorites are spoken of as the people of the past, whereas the Canaanites are referred to as still surviving like the Canaanites of whom they formed a branch, the Phoenicians connected their region with the great powers and the process of nature.

2. External Evidence

External facts are not the causes of mental states, nor are mental states the causes of physical facts. His father received His son's communication with external composure, but inward wrath. Her life had no external aims only a need to exercise her various functions and indications was apparent. Moved partly by external influences and partly by a slow internal reawakening, the people was preparing for the efforts of the 19th century. It consists of two regions, an external epithelial layer and more internal thin elastic.

3. Internal Evidence

Cora was walking away already leaving Deidre to her internal was. Dusty was one-man internal affairs department. The most important internal industries are in wool and frozen meat. Our journey He was upset from His carriage, and the accent caused in internal abscess which was never cured these tribal dynasties of Rajput were gradually supplanted by Muslim invades of the 11th century and weakened by internal feuds.

4. Ketuvim and Neviim

The formation of the Ketuvim as a corpus was not completed until a very late date is evidenced by the absence of a fixed name, or indeed any real name. Greek words are to be found in the songs of songs and in Daniel. No

fragments of Esther have turned up among the biblical scrolls from the Judaeen Desert.

The Phenomena accord with the traditions of Josephus and Rabbihic sources limiting the activities of the literary propels to the Persian era. Nevi'im Aharonim contains the prophecies and teaching of individual prophies, mostly recorded in verse. Amos and Hosea were prophets in the Northern Kingdom of Israel.

5. Pentateuch / Torah / Law

The Torah or Jewish written law, consist of the five books of the Hebrew Bible. His greatest work is the commentary on the Pentateuch in opposite to Maimonides and ibn Ezra. Laudable, and the least sources of the Pentateuch. Rather it was implicitly contained in the Torah and the duty of the teacher was to show this. The law of history relates to man.
