

Jeremy Merritt

Week 4: Research Paper Topic:

With the task of completing 8 pages, I am unbelievably torn between writing about the Torah's body of work and its significance or non-significance to the world of the 21st century versus the impact of the Prophets both major and minor and their body of work and its significance or non-significance to the world of the 21st century. The more I think about the task, I am leaning more towards writing about the prophets. Due to their continued impact of the scriptures on humanity currently that seems to be the direction I wish to cover.
