**Number 1**

Wanderson Goncalves

ATH 473 – Internship – Biblical Studies

September 15, 2017

## Student Journal

This journal intends to show step by step the whole process and the imprudence that this Supervised stage means for my growth, both personal and ministerial.

This semester I will go through various areas within the church so that I understand and understand how the structure of the church is systematically established, in addition to working directly in these areas as well, so I will have the opportunity to put into practice all the knowledge acquired in Beulah Heights University.

In this Journal I will report all the areas worked on this September and also report my experiences. This semester I am working directly in the areas of Discipleship, Parking Team (Next Steps) and Security Team.

- **Discipleship** - Engage local Brazilian Community, start a small group for Brazilians to have community and study the Bible together.

This month we had two meetings (09/08 and 09/16). It was established that the group will be for few people so that we can have more relationship and thus be able to have a direct accompaniment with the people, to have a real opportunity to disciple.

- **Parking Team** - On two Sundays of the month, it is my job to help and organize the flow of people and cars before the beginning of the first service and during the transition to the second service, after continuing to help people flow after leaving the second service. Between this time, I help to welcome the people and take the doubts in the lobby.

This month was held on 08/27 (unofficial for internship) and 09/03. I have connected directly with people, this is helping me to create a relationship and gain the respect of people. Therefore, I can speak of God more openly and I can express my ideas.

- **Security Team** - In this department I have the opportunity to help in the safety of the church, especially for the cult of children that happens separately from the main cult. I can understand the whole process and I can take a more systematic and analytical look at the church.

This month was held on 09/10 and 09/17.
