ATH 115 Success for Life Ministry

September 20, 2017

A new discovery can be anything for one that is looking for challenges in life. From the dawn of time man has been searching for new discoveries. The discovery of fire for example was probably an invention of our ancestors during the stone age. The earliest sign for fire that connected with mankind comes from an area in the Lake Turkana region of Kenya.

User friendliness of the library is based on material that is readily accessible to the user. There are studies and research about the literature that is housed in libraries around the country. User friendly libraries foresee and respond to the needs of the user and how convenient it is for them to access the resources and material. The user should be able to do this without assistance.

Accessibility of materials is well planned for the user to be able to get what he or she needs. Not only for those of us that are able to get around without any physical or mental issues. Accessibility should be affordable for everyone. In the education field, there has been great strides to meet the needs of all those that need accessibility to materials.

Service of staff is one of the most important services when dealing with the public. For business that are in services to people it is necessary that staff are well trained to assist their supervisors to carry out tasks with helping to make every day decisions in their field. They must be able to gather information and translate it to the one that is in need of it.

The most important thing you learned when you do anything is that you must be well prepared for whatever you seek. For example, when you write a resume make sure that it is filled with eye catching information about you. Make a point of having it neat and well formed. Understanding that you have something that they need.
