

Journal Number Two

My journal thus far has enhanced my life truly. The recreation center has given me the opportunity to do more outreach. I search for a definition of the word outreach. The dictionary defines it as the Greek word *proeuomail*, which means to go, and the word *matheteuo*, means to make disciples.

It means to reach out to others, to extend a helping hand to those that are lost. Reaching farther out, more than what you see. Helping people to find whatever they may need at the time. Saturday September 30, 2017, I will have another program to put together for the older people as well as the young.

I learned that sometimes God will use other people to bring out of you what was hidden so you may be position for purpose. It gives me a chance to learn more, develop my skills and to exercise my gifting. I enjoy doing it because it is who I really am. I enjoy caring for people and helping those to reach their destiny. You may say that I am your ladder holder, so you may climb higher to reach your goal.

It is s all about bridging the gap, changing mindsets to the standard of Christ. We can't make disciples until we actually go.
