Research Paper Topic

I have chosen to do my research paper on the Torah-law

In this research paper I seek to layout the origin of the Torah-law and what its intended purpose was. I will also discuss the people in which it was intended for. The Torah-law took shape and took on a life of its own by influencing, impacting and shaping the lives and mindsets of generations of people. Lastly, I will discuss how the Torah-law is still relevant today in the 21st century.
