

Peer / Self Evaluation

Week 8 Discussion Board

Oral Presentation on Education Concern

Non-verbal Skills

Eye Contact: Eye contact this time was really good. I can see where with a little larger audience I was able to interact better.

Facial Expressions: My facial expressions varied during this presentation, for whatever reason. Hopefully because I felt more comfortable this time.

Gestures: There were some gestures for effect.

Posture: Posture was good. Seemed a lot more comfortable this time.

Vocal Skills

Enthusiasm: I think I was more engaging this time. The material was good and, I think, presented well.

Vocalized Pauses (uh, well uh, um): There were a couple of times when it seemed that I wanted to say something other than what I was thinking.

Content

Topic Announced: I believe the introduction was good, opening with questions relevant to my topic.

Time frame: A little over 8 minutes and I thought that was good.

Completeness of Content: My audience knew what I would be discussing and could easily follow along.

Professionalism of Presentation The presentation was done as professionally as could be done with where I am in this class. My goal is to continue to improve. I was given some suggestions by Professor Wallace that really helped on this presentation.
