

Today our restaurant had a great day in sales. The chicken littles lead the way with a number of 25 (mode) sold for a total of (\$87.50). The huge burger and coney dog were in second each with a number of 20 sold for a total of (huge burger \$59.00) and (coney dog \$39.80). From the 6 specials offered there were a total of 119 specials sold. The total value of food sold was \$303.00, for an average \$2.55 for each special.

$$20 \times 2.95 = 59.00$$

$$18 \times 1.49 = 26.82$$

$$25 \times 3.50 = 87.50$$

$$19 \times 2.95 = 56.05$$

$$17 \times 1.99 = 33.83$$

$$20 \times 1.99 = 39.80$$

$$20 + 18 + 25 + 19 + 17 + 20 = 119$$

$$59.00 + 26.82 + 87.50 + 56.05 + 33.83 + 39.80 = \$303.00 / 6 = 50.5$$
