Week 14 Reflection Paper

I recommend media ministry, 1: 1 parenting and cultural ministry. Media ministry will be passed on to many young people and workers. The 1: 1 parenting ministry will know many new believers. Cultural ministry will open up the hearts of the people of many peoples and many souls will return to the Lord. So, I would recommend these three as ministry near our school area.

The first ministry. The CD production ministry, which started 20 ~ 30 each week for the saints who could not attend worship service in CD district, hospital or business trip, should now develop more than 10,000 copies each week and spread it to the whole country and all over the world. More than 1,700 preachers' CDs of sermons should be self-replicated and distributed in each city by missionary volunteers and lay-out volunteers in various cities. The following is IT ministry. The IT / Web team should be accompanied by a variety of volunteers, including network, DBA, programming, web design, strategic planning, and server equipment management. There should be a team that manages the server equipment and manages the wireless network such as the wired network including Wi-Fi, as well as the provision and maintenance of the personal PC of the pastor, staff and staff. In addition, there should be a team that develops and manages IT-related software as well as a school-based system, and a team that manages and operates Web sites, contents development, design, and development. Therefore, it helps many churches. The following is news ministry: 1) Introduction of ministries of churches and churches. It serves as a communication linking churches and churches. 2) We share the sympathy of the faith life by carrying a vivid testimony of the saints who have experienced in the ministry of the church, the mission field, and the place of life. 3) We use the news of the pastor's column and the story of various people's faith with the various news of the church to be the joy

of the Lord.

Second cultural ministry. The Ministry of Culture and Arts reaffirms the actions of Jesus or the life of martyrs through the act of sexual intercourse so that we can share deep faith communion and grace and draw out the religious problems, troubles, and difficulties that our Christians face every day. It also has mission function to find clues and to find contact points of faith to those who do not believe. It is a ministry that exclusively gives glory to God only through art. In the field of ministry, I would like the participation and interest of believers who are interested in acting, and I also need workers who work in invisible places such as lighting and sound. I think that Christian art should flow religiously. In the field of art, what kind of worldview, perspective, and standards are important is not important. Many churches are discouraged because they are trying to distinguish themselves from what is visible. Many of my friend's friends come to me with the idea of 'what to create', which is hard to think of as such. So, people who have similar thoughts and worries are encouraged and comforted themselves by gathering in the school building. Yes, learning at school can lead to more homework and worries. I come to get the answer, but from the orientation I say, 'I will have more homework'. However, if you have ever had a hard time asking the wrong questions, you can stand right at the right place and ask the right questions. Therefore, I think this cultural ministry is very important.

The third 1: 1 parenting ministry. Intercession: We know that in order for faith to grow and sustain, there must be a balance between Word and prayer. If the Word remains in knowledge only, the head and the heart become cold-hearted saints, but if we proceed to prayer and practice the Word in our life, we become healthy saints and can take on the role of light and salt in the world. Intercessory ministry is a necessary part of your training with balanced pillars of prayer. Stay away from the world: It allows you to go to the retreat for two nights and three days to

experience spiritual ministry, such as experiencing a deep encounter with God, restoring your relationship with the disconnected or chilled Lord. 1) Plan and carry out ministry away from the world. 2) Help the pastor actively in relation to ministry away from the world. 3) We train and train volunteers who are away from the world. Field of ministry - volunteers are needed. The qualification is limited to those who have already participated in the world apart from the world, and a volunteer fee must be paid to attend the volunteer group at least twice. Evangelism Explosion is taught. Evangelism Explosion is to glorify God by arming laymen with words through fellowship, evangelism, and discipleship training. It is in the training of evangelists to make the people who meet at the scene of life come to live the evangelism.

I recommend these three. If there is a church or organization near our school, I would like to have a ministry to help these churches by recommending these three ministries. I would like to be an organization that can raise more local churches than crowded churches. Therefore, I hope that churches that do such ministries will be created. Only then will we be able to give strength to more churches and ministers, and to burn them again.
