

INFINITE GOD

Debra Rucker

“Infinite God means the God without limits. Infinite is being endless, vast, immeasurable and universally, and Omnipresent, Omniscience, and Omnipotent. God is not confined in our understanding; nor is He bound in any other sense. God do not jump when we say jump or move when we say move. God is not restricted in any of way. He is bigger enough to handle the whole world in His hands. “God dwell in a mode of being totally beyond us and wholly above us and infinitely moved from us; yet when we think about God we are trying to think about someone unlike anything we know. Who can we compare to God; He is like Himself. We cannot compare Him to any graven images here on earth nor in heaven.

” People all over the world are facing many trials and tribulation and trying to figure out where is God; do He see what I am going through and do He really care that I am going through what I am going through right now. There are some people will say I am searching all over for God to give me an answer to my problems that they have no control over. Who can understand an infinite God with a finite mind? There is no searching of God understanding.” All generations of mankind have searched all kinds of ways to fulfill their questions of life; however it seems the most searches leave me lacking and with more questions. God on the other hand will always have more answers than you have questions, His knowledge and wisdom have no boundaries. He will give you all the right answers and direction because He is the creator of all things including you. He loves you without measure. He want all that is good and best for you and will provide of ways of doing things.”

There is a song that says I searched all over and couldn't find no body, nobody greater, no body greater than you. Our minds are so limited and we cannot go beyond our searching of God. God is closer than we can ever imagine; He reveals Himself everyday through nature, in

all His creation. God reveals Himself even through His word. We have to have the Faith and trust and believe that God is God, He is all powerful, great and much more.

Jeremiah 29:13 says and ye shall seek me, and find me when ye shall search me with all your heart. God knows our hearts and He knows our every intention of finding Him. He knows everything that we go through before we even bring it to Him in prayer. Psalm 139: The Lord says while they are still talking about their needs; I will go ahead and answer their prayers.

God is not limit in helping us with our different situation. God is all powerful, all knowing and everywhere at the same time. God hears every prayer, you can pray to Him if you are in New York, Florida, Mississippi, and Chattanooga. God hears every prayer at the same time and sees every tear that is shed. God is bigger than all our problems; He can handle them. We will just take them to the Lord in prayer and leave them there. God says cast your cares upon me for I care for you. If we will just take our problems to the Lord in prayer and leave them there. God can do more with our situations than we can.

We are limited in our understanding of God and no one knows the mind of God. His thoughts are way beyond our finite minds. Isaiah 55:8-9 says for my thoughts are not your thoughts, nor your ways my ways. For as the Heavens are higher than the earth, so are my ways higher than your ways, and my thoughts than your thoughts.

“God is uncreated being and any attempt for finite people to understand or describe Him will end up wanting. Isaiah 40:28 tells us; He never becomes faint or weary, there is no limit to understanding the Lord. The Lord is the everlasting God and He created all the world. There is no searching of His understanding. God is not human. He is a Spirit and there is no understanding Him.” There are people wanting to know where He come from, who is His

parents. Who created God; there are so many questions that are ask about a God who created all things. Scientist do all that they can do research after research and still in awe of who He is and how the earth was formed. They are limited in there thinking, and in their understanding of God. God is sovereign, majesty, powerful, pure, just, gracious, and finite people trying to know how an infinite God do what He do in our lives and in all of His creation.

God ask Job in Job 38:4-7; where were you when I laid the earth foundation? Tell me if you understand who marked off its dimensions? Surely you know! Who stretched a measuring line across it? On what was its footing set or who laid its cornerstone while the morning stars sang together and all the angels shouted for joy?

We are even limited in our questioning God to why we even go through things. Remember when you was a child and you wanted to know why you were being punish for something you did and you didn't like that punishment, but you would not question your parents because you knew that you would get in more trouble and more consequences and it would be said that you were talking back to your parents and to talk back to your parents, means you were being disobedient, so it was best to be quite. God did not like it when the children of Israel would be disobedient to him and he did not like the murmuring and grumbling that they did. They allow their bondage and hard times to last longer because of that. It seems like we fear man more than we fear God and He is the one who gave us our parents. We talk back to God and we ask a whole lot of questions about things we have no control over. We ought to ask to help us to endure the things that we are going through, because trouble don't last always. Again I will say that weeping endure for a night, but joy comes in the morning.

“Matt Slick says it is absurdly foolish for us to question Him or His ways and thoughts because what He does is right and it is a privilege to believe and trust His word and His ways. He

also says that when we say that God is infinite we mean that He is not restricted by space and time he exist beyond our universe and beyond limitations of our three dimensions which are height, width, and depth.”

God is everywhere and there is no place that we can go to get away from God. The Psalm says in Psalm 139:8 If I ascend into heaven, you are there; If I make my bed in hell, behold you are there.

Everything in our lives are limited because we are a finite people who are control by an infinite God. We must keep the faith, trust God in all of His power and might to bring us through our troubles times. Jesus did not tell us it would be easy. He said in this world we shall have trials and tribulation, but He said be of good cheer I have overcome the world. I am glad that trouble don't last always; weeping endure for a night but joy comes in the morning. Since God is in control of everything why it is so hard to trust the one who have all power and who got the whole world in His hands? Since we are in the hands of God; we are in good hands. We are safe in His arms. What a mighty God we serve; who can pick you up and turn you around and place your feet on solid ground. Ecclesiastes 7:13 says God can make what's crooked straight. Whatever crooked things in your life need straighten out God Can straighten it out and whatever crooked places you are in God can bring you out and straighten it out if you let Him.

Revelation 22:13 tells us that God is the Alpha and Omega, the first and the last, the Beginning, and the End. I have heard it to be said “that when God is coming, He is going, and when He is going, He is coming. God bumps into Himself.” God is greater than anything we can imagine; He is sweeter than the sugar on the honey cone. God is glory, Majesty, He is Sovereign, love, and forgiving, caring and He is to be exalted above all things.

King David said in Psalm 8:4-6. When I consider thy heavens, the work of thy fingers, the moon and the stars, which thou hast ordained, what is man that thou art mindful of him? And the Son of man that thou attend him. I am so glad that God had us on His mind even before the foundation of the world and if it had not been for the Lord on our side where would we be. He had a reason for us being here. God wants us to love Him, put Him first in all things, worship Him praise, Him and Bless His holy name.

We ought to think God for being God and for loving us enough to be a part of His divine plan in His creation, but we are still going through life with questions that still cannot be answered about a God who has no limits and who has no end. "Patty Paulson said that God is unique. He has no beginning and He has no end. The God of the Bible exists outside of our dimensions of time and space, so any attempts to help you to understand God will be incomplete. People are still wondering about their unseen creator." Isaiah 45:5 the King James Version of the Bible says: I am the Lord, and there is none else, He said there is no God beside me: I girded thee, though thou hast not known me.

I thank God for being God and being God all by Himself. God is very much above our knowledge and understanding of Him. God doesn't need no help from us in trying to figure out who He is; we must know who we are and who's we belong to and knowing that even our lives are limited, our lives belong to God. I thank God for Jesus who came down through 42 generations and seeking and saving that which is lost because sin had separated us from God and Jesus made away for us to get back to God. They marched Him from judgement hall to Judgment hall, they put a crown of thorns on His head and they marched Him up Golgotha; which is called the Hill of the skull. They nailed His hands; they nailed His feet; they hung Him high they stretch Him wide. Jesus was put in a borrow tomb because he would not stay there long. He was put in a

grave. Jesus stayed there all day and all night Friday and all day and all night Saturday, but early Sunday morning Jesus got up with all power in His hands.

I thank God for Jesus who is now sitting at the right hand of God making interceding for us. I thank Jesus for sending His Holy Spirit to lead us and to guide us into all truth. Only through Jesus will we come to know the things about God, and we will only know Him in part.
