

My library visit was enjoyable and informative. I decided to go to the section where books were housed under The Great Depression and Presidential History and discovered a book entitled The Promise / President Obama, Year One written by Jonathan Alter Author of the Defining Moment: FDR's Hundred Days and the Triumph of Hope

In his book, he describes how Barack Obama's inauguration as president on January 20, 2009, inspired the world.

Jonathan Alter is one of the country's most respected journalists and historians and had access to the White House and was able to give us a peek into the everyday life of a president.

Mr. Altar shows us how cunning Obama was prior to his election, and the moves he made to secure a stimulus package before he was inaugurated, while engineering an unpopular bailout of the banking and auto industries.

I noticed the quietness of the library and the quest for information by students and adults. I was able to read and absorb information in the quietness of the environment.

The library was well lit and possessed a good collection of books for the reader.
