Introduction to Pastoral Care

9/6/2019

Pastor Monte Norwood

One day this week while bathing a young man I got him to open up and he began to tell me that he knows that God has a plan for his life. He went on to say that God came that we might have life and that much more abundantly. He was so frail and looked as if he was missing something out of his life. Just as I did with all of my young people I take notice with them I get them to open up to me and feel safe and know that I will do my best for them. I am often known as auntie or granny to most because so many of them need to know that someone care about them. They will feel comfortable after assurance that they are safe, although they have already been shot, stabbed, jumped from a building or whatever the situation may be.
