Title : Ecclesiology from the Inception to Present Day

Thesis ; The Church from its beginning has been very beneficial, it has also caused division amongst followers due to the various ideologies.

Outline

Introduction

- I. Origin
- II. Mission
- III. Church Fathers
- IV. Denominationalism
- V. Conclusion

Statement : (1) I aim to begin in research concerning the Doctrine of the Church and its early objectives. (2) To discuss the Early Church Fathers role in helping to develop most if not all of the doctrines we use today in the Protestant Church. (3)To differentiate between a few major denominations.

Conclusion : I believe without a doubt the early Church had objectives for every Church that would follow, and left a clear message on what its purpose was.
