

Hello Dr. McCrum

My research paper will be on prophets. This area interest me. I am from Rhode Island and many people in the New England area are calling themselves prophets. I am not debating who they say they are, but I want to research the area more deeply. I will define a prophet, nature of a prophet, and preparation of a prophet. I will write about the Old Testament and New Testament prophets. I will also cover the purpose of prophecy, elements of prophecy, the ministry of a prophet, and the modes of prophecy. I will also address the prophets of today.

God Bless

Philip N. Miller
