

1. We believe in the existence of God and that he walked the earth through Jesus over 2000 years ago.
2. For some who are not ready to confess Christ they sometimes try to criticize the Bible even though it proves Christ existence. It validates the Gospel and can influence and help you confess Christ.
3. Age of Reason affected the church because tradition became to old for the new generation, which caused the church to evolve into what some are today.
- 4.
5. Worldview and proving the Gospel are different. Proving the Gospel is challenging because you are trying to tell someone who God is and you are also trying to prove his existence. The worldview would basically be how the world view the Gospel before getting into the word and understanding what God has already done.
- 6.
7. He was not seen as the Son of God and atoning Savior. He was seen as a teacher of morality or as misguided apocalyptic visionary.
8. This deals with the stories of Abraham, Isaac and Jacob. These stories are based on the different things that happened during each of their lives and also the promises passed down though each of them from God.
- 9.
10. During the Age of Reason supernaturalism is said to be events that never occurred.
11. Intellectual autonomy is when someone can think for himself or herself.
