

## ANNOTATED BIBLIOGRAPHY {ASSIGNMENT2}

### BIBLIOGRAPHY REFERENCES TO MY FINAL PAPER

#### SOURCES: 1

McKissic, Sr D. (n.d.). THE PARABLE OF THE MUSTARD SEED Matthew 13: 31-32.

This source provides a discussion of the mustard seed in the Biblical perspective. The chosen bible verse is from Matthew 13:31-32 {ESV Study bible}. This article explains why Jesus used the parable of mustard seed. It also explains what the parable was referring to and the theological interpretation stand. Finally, the article also explains the analogy of a mustard seed to the kingdom. The reason behind the choice of this article as a source in my research is because it gives a credible interpretation of the parable biblically.

#### SOURCE: 2

Baroniya, S. S., & Baroniya, M. B. (2014). Germination and early seedling growth of mustard and wheat as affected by the allelopathic activity of Pinus needle extracts. *Int. Res. J. Environ. Sci*, 3, 27-34.

This source explains the seed grain itself {mustard seed} in the Greek perspective, and it is very detailed to comprehend how it germinates and the way of sowing the specific seed. Additionally, this source gives the account of the parable from other synoptic gospels apart from Matthew. It also identifies the difference in words based on different bible versions.

The reason for using this source is because I have seen it so fundamental to my research in the elaboration of this tiny seed that Jesus used in His parable teaching. It is also rich in the

explanation of the mustard seed in its original {Greek word and meaning} approach in New testament.

SOURCE:3

Iqbal, M. S., Haque, M. S., Nath, U. K., & Hamim, I. (2014). Genetic diversity analysis of mustard germplasm based on phenotypic traits for selection of short duration genotypes. *Int. J. Agric. Sci. Res*, 3(8), 141-156.

This source explains the mustard seed in the genetic diversity analysis. The Keywords being genotypes-environment, interaction, and heritability. I selected this source since it will be essential to my research work as I support science used in this parable of mustard seed. The keyword is "KIND."
