

## A TH 621 JAIL AND PRISON CHAPLAINCY

### Mid-Term Exam

#### (Essay)

1. In your Textbook, *Prison Ministry: Understanding Prison Culture Inside and Out*, the author, Lennie Spitale, uses four parts to present his thesis: Feelings; Perspectives; Dynamics; Engaging the Culture.

WRITE A ONE PARAGRAPH SUMMARY FOR EACH OF THESE FOUR PARTS.

2. Write a fifth paragraph explaining, in your own words, how you see the first three parts of his book working and flowing together to paint a picture of life behind bars.
3. Write a sixth paragraph explaining how these first three parts, which are experiential in nature, apply to the fourth part, which is practical and applicable in nature.
4. Compare and contrast Part IV of Spitale's text with Part IV of Stockard's Paper. What points are similar and what points are different?

**NOTE:** This is an open book exam. You may use your textbook, handouts, and Discussion Board dialog in answering these questions. I am not so concerned about what you have been able to memorize as I am about the manner in which you are able to apply the essentials of this course to your ministry.
