Nursing 102 Disorders of the Endocrine System
Poster Presentation

Endocrine Disorder Poster Presentation Objectives 2023

1. State information concerning the Endocrine Gland & Hormone abnormality involved in the disorder.
2. Recognize signs & symptoms of the disorder.
3. Explain related diagnostics including normals, abnormals, & interpretations.
4. Recognize treatment measures for the disorder.
5. Identify nursing implications to support a client with the disorder.
6. Discuss three priority nursing diagnoses related to the disorder.

Directions

- Students will work in randomly assigned groups.
- The poster will include the information listed above in the objectives.
- Presentation must be clear and presented with only referral to notes.
- The poster will be presented by the team in class on February 23rd

The poster presentation is an activity that replaces your quiz for the Endocrine Unit.

Students will work in teams to prepare and present a poster to the class.

Presentations will be based on assigned Endocrine categories and content will be testable.

Each group member must participate in the presentation in order to receive your quiz grade points.

You may refer to your notes but please do not read the information. Please plan on at least a 10-15 minute presentation.
