N102 – Nursing Care of Adults
Chronic Kidney Disease
Class Preparation

Identify three (3) body systems that are affected by Chronic Kidney Disease (CKD). List two (2) clinical manifestations with rationale for each body system identified. Insert information in the table below. Be prepared to share with your classmates.

	<u>Body System Affected:</u>	<u>Body System Affected:</u>	<u>Body System Affected:</u>
	Cardiovascular	Neurologic system	Urinary System
<u>Clinical Manifestation with Rationale:</u>	Hypertension – disease kidneys are less able to regulate blood pressure	Atrophy – CNS is becoming depressed	Polyuria – inability to concentrate urine
<u>Clinical Manifestation with Rationale:</u>	Heart failure – when the kidneys don't work well more stress is put on the heart.	Muscle twitching – metabolic waste is building up	Anuria – when CKD gets worse fluid retention occurs
