N102 – Nursing Care of Adults
Chronic Kidney Disease
Class Preparation

Identify three (3) body systems that are affected by Chronic Kidney Disease (CKD). List two (2) clinical manifestations with rationale for each body system identified. Insert information in the table below. Be prepared to share with your classmates.

	<u>Body System Affected:</u> Urinary system	<u>Body System Affected:</u> <u>Cardiovascular</u>	<u>Body System Affected:</u> <u>Respiratory</u>
<u>Clinical Manifestation with Rationale:</u>	As CKD worsens = fluid retention = dialysis	HF, HTN + fluid overload	Kussmaul respirations – acidosis
<u>Clinical Manifestation with Rationale:</u>	Polyuria from inability to concentrate urine	Dysrhythmias – high K+, low Ca ²⁺ , acidosis, low perfusion	Uremic pleurisy from respiratory infections
