

MHR SON Star Nomination Form

Date submitted: 4/19/23

Name of person submitting nomination: Sara Robinson

Name of student nominated: Giana

Tell us what makes this student a star: Giana creates comprehensive outlines/study guides on her own time for each component of our unit exams--including the number of questions per topic, supplemental tables/charts, space to add notes, and organized to fit the flow of our lectures. She usually finishes and shares them via groupchat prior to even having our first lecture in each unit. Giana does not have to make these study guides, or even if she did--she is not required to share them with us, but she does anyway because she is a star and I know that we are all grateful for Giana's work. Thank you Giana! :)
