

Beebe Healthcare
Margaret H. Rollins School of Nursing
Nursing 101 - Foundations of Nursing
Day 1 Class Prep Assignment

Jada Sales-Morales

1. According to the Beebe Healthcare's Hand Hygiene policy, identify a situation in which a healthcare worker should use only soap and water to clean their hands. Then identify a situation where a healthcare worker could use waterless hand rub.

a. Soap and water only: ____After contact with chemicals

b. Waterless hand rub (ex. Hand sanitizer): ____Before preparing or administering medication _____

2. Go to the ATI Module for Infection Control/Isolation found under "Foundational Nursing Practice" in Engage Fundamentals 2.0. Find the "Types of Precautions" lesson and watch the Video called "Transmission-Based Precautions." Why was the patient in the video on contact precautions?

____The healthcare providers suspect an infection going on with the patient leg, so to prevent contamination, contact precautions is set. Contact precaution is set to prevent transmission of microorganism to visitors and providers through direct or indirect contact. Contact precaution is used when a patient has an infection. _____

3. While reviewing the Basic Skills videos, you should notice similarities between the nurse/patient interactions in each video. Based on your observations, what are two (2) things you should do **before** providing any care to your patient?

a. __Washing hands_____

b. ____Ask/check the patient's name and date of birth to verify that's the correct patient

4. Fill in the correct medical abbreviations for the following terms:

Bedtime _____ HS_____

Four times a day _____ QID_____
