

**Margaret H. Rollins School of Nursing
N201 Nursing Care of Special Populations
MENTAL HEALTH NURSING**

Class Preparation

Directions: Answer the following questions:

1. What is your perception of an individual with a mental illness?
I see them as being someone with a mind that functions differently than the average person.
2. What would you say to a depressed client who was admitted to a psychiatric facility after attempting suicide?
Is there anything I can do to help with your mental state? I am here to listen and act if need be.
3. What is a Mental Status Examination?
It is a structured exam of a patients behavioral and cognitive function.

Directions: Identify the following key terms associated with caring for patients with mental illness and substance use disorders in general practice settings with the descriptions or definitions listed below.

- | | |
|-----------------------------|-------------------------|
