

## MHR SON Star Nomination Form

Date submitted: 9/27/2023

Name of person submitting nomination: Sheila Velasquez

Name of student nominated: Hannah Rossi

Tell us what makes this student a star: During OB clinical, Hannah and I were paired up with a mother who was induced. Toward the end of clinical the mother was preparing to give birth to her child. The Doctor only wanted one student in the room and knowing how much I wanted to see the labor, Hannah told me to stay in the room. She was willing to give that opportunity to watch a labor and without hesitation she decided to let me watch it. I'm so thankful that she gave me that opportunity to watch the labor.
