Nursing 101: Foundations of Nursing
ATI Real Life: THA Simulation Directions - 2023

Scheduled Activity	Assignment	✓
Clinical assignment will be sent via Edvance360 by 1700 the day before the assigned simulation.		
Prepare for virtual clinical.	1. Research the medical diagnosis (THA) and complete a <u>Preconference Form (blue box form)</u> for this patient.	
	2. Complete a <u>Nursing Problem Worksheet</u> for this assigned patient. This is to be completed <i>before</i> you start the virtual simulation.	
	3. Complete <u>ATI Medication Templates</u> on Morphine Sulfate (IVP) and Oxycodone PO.	
Virtual Simulation	1. Access ATI Real Life 4.0 tab in “Apply” tab and watch the instructional tutorial on how to navigate ATI Real Life 4.0 scenarios. 2. Complete the assigned virtual simulation, “THA.” You must achieve at least a “satisfactory” on your individual performance profile. a. If you are unsatisfactory, re-do the simulation until a satisfactory grade is earned. 3. Save the downloaded report at the end of each simulation. This will be submitted by 1400 at the conclusion of the <i>assigned clinical day</i> . A report for <i>each simulation attempt</i> MUST be submitted.	
Scenario Questions and Reflection	1. During your simulation, review the questions in the Question and Reflection form provided. <u>Answer these questions</u> as your scenario unfolds.	
End of Simulation Day	1. Submit by 1400 on your assigned clinical day the following completed paperwork: a. Preconference Form on THA b. Nursing Problem Worksheet Form c. ATI Medication Templates for Morphine and Oxycodone d. All downloaded reports from each simulation. e. ATI Real Life: THA Reflection Questions	
All documents must be submitted to the faculty Dropbox by 1400 on the assigned clinical day.
