

## Class Preparation Ear

Hearing Diagnostic Tests	
How are these tests performed? What is considered normal?	
Whisper Test	Weber Test
<p>The whisper test is performed by standing 2 ft behind pt and instructing them to cover the ear that is not being tested with a finger over the tragus. Whisper number letter combination, normally the pt can repeat it back.</p>	<p>Place vibrating fork medially on pt head. Normally the tuning fork will be heard equally in both ears.</p>

❓ What is the correct way to instill eardrops?  
 Have pt lie on side, pull auricle upwards and out, hold dropper 1 cm above ear canal and administer medicine, gently apply pressure to tragus, instruct pt to remain side lying for 2-3 minutes.

❓ Label the parts of the ear:
