Margaret H. Rollins School of Nursing
Nursing 102 - Nursing Care of Adults

ATI Professionalism - 2024

AFTER WATCHING THE FOLLOWING MODULE, THE STUDENT WILL BE ABLE TO:

- Discuss preparation for the licensure examination.
- Analyze various nursing organizations.
- Summarize qualities needed when functioning as a nurse.

- Navigate to the Learn tab in ATI and access Nurse's Touch: Becoming a Professional Nurse.

- Choose the module titled *Professional Nursing Practice*.

- Engage with the scenario and respond to the associated questions.

- Upon completion, proceed to the module test and retake it until achieving a minimum score of 80%. Download the module's report with both the lesson and test grade noted.

- Submit both the downloaded report, answered questions, and your updated N102 Professionalism Pledge to the designated Dropbox labeled "ATI Professionalism" by 1500 on May 10th, 2024, to receive a class preparation grade.

Nursing 102 - Nursing Care of Adults

1. Research at least two professional organizations on the internet. What professional organizations are you interested in joining? Why?

American Nurses Association (ANA)

The vision and mission of the ANA includes a discussion of policy advocacy to promote the rights of the nurse in the workplace, the image of nurses, and lobbying government for changes on nursing and health-related issues. The ANA is a well-known organization that many nurses join.

Royal College of Nursing (RCN)

The RCN's vision and mission involves the interest of the diverse voice of nurses by influencing and implementing policy through lobby government and stakeholders to improve the quality of patient's outcome. RCN clearly articulates a health policy focus in its vision, mission, and mandate.

2. Access the website for your state nurses' association. List 2 advantages to joining the association. What are your thoughts about joining?

Delaware Nurses Association was formed to support and advocate for the nursing profession and health of those we serve, with this it would allow you to have a voice in matters that you are passionate about. Another advantage is to allow for you to hear and see other healthcare perspective on different aspects in healthcare.

3. Imagine a conversation with a nurse recruiter for the next 2 questions:
 - a. Discuss your personal qualities that would be an asset when working as a professional nurse. List those qualities here (at least 3).

Personal qualities that would be an asset when working as a professional nurse is I'm very passionate, very understanding and very patient. These qualities would be an asset to any nursing job because without passion you can't be a good nurse, without being understanding you can't provide the best upmost care and without being patient you won't be able to truly understand your patient.

- b. Discuss with the recruiter the type of role you are interested in pursuing once graduating from nursing school. Describe the role here.

I'm interested in pursuing any avenue of nursing at this moment in time, I have interest areas such as OR, L&D, ED but still have room to grow and experience before agreeing to one area. Any role I decide to pursue I will grow and learn as a nurse and become a even better nurse with time.

4. What are your interests? Discuss how your interests and personal qualities will contribute to your role as a professional nurse.

I have interest in OR, L&D, ED or forensic nursing outside of bedside nursing. My commitment to nerve gives up when things get hard will allow me to always be open minded and grow and learn as I continue in any avenue that nursing will take me.
