

**BEEBE HEALTHCARE Margaret H. Rollins School of Nursing  
Nursing 102 - Nursing Care of Adults**

**ATI Professionalism - 2024**

**AFTER WATCHING THE FOLLOWING MODULE, THE STUDENT WILL BE ABLE TO:**

- Discuss preparation for the licensure examination.
  - Analyze various nursing organizations.
  - Summarize qualities needed when functioning as a nurse.
- 
- Navigate to the Learn tab in ATI and access Nurse's Touch: Becoming a Professional Nurse.
  - Choose the module titled *Professional Nursing Practice*.
  - Engage with the scenario and respond to the associated questions.
  - Upon completion, proceed to the module test and retake it until achieving a minimum score of 80%. Download the module's report with both the lesson and test grade noted.
    - Submit both the downloaded report, answered questions, and your updated N102 Professionalism Pledge to the designated Dropbox labeled "ATI Professionalism" by 1500 on May 10th, 2024, to receive a class preparation grade.

Nursing 102 - Nursing Care of Adults**

1. Research at least two professional organizations on the internet. What professional organizations are you interested in joining? Why?

The American Nurses Association is something I would be interested in joining because they have a strong foundation of information and help nurses all around the country. This association is well known and accredited by many places, which makes it a reliable source for information and learning new things. The National Student Nurses Association also interests me whilst I am still a nursing student because they give students opportunities to go to conferences and bond with nurses that have experience.

2. Access the website for your state nurses' association. List 2 advantages to joining the association. What are your thoughts about joining?

Two advantages to joining the association would include networking, such as collaborating with other businesses and healthcare professionals, and career development. Career development is helpful because it allows nurses to expand their knowledge and learn new skills. I would be interested in joining due to the potential of growth and networking within the community.

3. Imagine a conversation with a nurse recruiter for the next 2 questions:

- a. Discuss your personal qualities that would be an asset when working as a professional nurse. List those qualities here (at least 3).

My personal qualities that would be an asset when working as a professional nurse are accountability, time management, hardworking, and respect. All of these qualities ensure that the patient is safe and taken care of in the healthcare setting.

- b. Discuss with the recruiter the type of role you are interested in pursuing once graduating from nursing school. Describe the role here.

The type of role that interests me in pursuing once graduating from the school of nursing is being a circulating nurse in the operating room. This specialty has sparked my interest since the first day of nursing school. It is such a difference from medical surgical nursing, but I think that I would thrive doing this job and provide honesty, respect, and accountability to the team.

4. What are your interests? Discuss how your interests and personal qualities will contribute to your role as a professional nurse.

My interests include traveling and spending time outdoors. My personal qualities include honesty, respect, and accountability. All these aspects contribute to my role as a professional nurse because being accountable and there for the patients is a number one priority. Being respectful in the workplace environment is crucial for teamwork and collaboration.
