1. Research at least two professional organizations on the internet. What professional organizations are you interested in joining? Why?

An organization that I am interested in joining is the emergency nurse association and pediatric nursing association. I am interested in joining these because these are the two fields that I am most interested in once I graduate.

2. Access the website for your state nurses' association. List 2 advantages to joining the association. What are your thoughts about joining?

It provides a community of healthcare workers to communicate and allow for updated information to stay up-to-date with healthcare information. I would like to join this to stay informed on up-to-date information regarding the healthcare profession.

3. Imagine a conversation with a nurse recruiter for the next 2 questions:
  - a. Discuss your personal qualities that would be an asset when working as a professional nurse. List those qualities here (at least 3).

Able to work well in a team environment, able to listen to pt. concerns and answer to the best of my ability, and I can take responsibility for my actions.

- b. Discuss with the recruiter the type of role you are interested in pursuing once graduating from nursing school. Describe the role here.

The role that I want after graduating a pediatric RN, while also learning more and more as I go through my career. This role will allow me to be able to continue my education and work in a path that makes me happy.

4. What are your interests? Discuss how your interests and personal qualities will contribute to your role as a professional nurse.

My interests are pediatric, whether that be in the ER, ICU or on any other floors. I feel like pediatrics is where I would thrive the best at. I am very patient, caring and feel like I can connect with the children's emotions a little more than adults.
