

Beebe Healthcare
Margaret H. Rollins School of Nursing
Nursing 101 - Foundations of Nursing
Day 1 Class Prep Assignment

1. According to the Beebe Healthcare's Hand Hygiene policy, identify a situation in which a healthcare worker should use only soap and water to clean their hands. Then identify a situation where a healthcare worker could use waterless hand rub.
 - a. Soap and water only: When hands are visibly soiled.
 - b. Waterless hand rub: Most patients care settings; certain areas are exempt due to fire regulations like hyperbaric treatment areas

2. Go to the ATI Module for Infection Control/Isolation found under "Foundational Concepts of Nursing Practice" in Engage Fundamentals 2.0. Find the "Types of Precautions" lesson and watch the Video called "Transmission-Based Precautions." Why was the patient in the video on contact precautions?

He has a wound that is most likely infectious, it's to help prevent spreading. The wound is also open and visible, it can worsen without the proper contact precautions implemented.

3. While reviewing the Basic Skills videos, you should notice similarities between the nurse/patient interactions in each video. Based on your observations, what are two (2) things you should do **before** providing any care to your patient?
 - a. Ask for Date of Birth for conformation
 - b. Announce yourself and explain what your plan of action

4. Fill in the correct medical abbreviations for the following terms:

Bedtime	HS
Four times a day	QID
Dx	Diagnosis
BR	Bedrest
CXR	Chest x-ray
Head of bed	HOB
IVF	Intravenous Fluids

5. Go to the ATI Module for Nutrition found under "Physiological Concepts for Nursing Practice" in Engage Fundamentals 2.0. Find the lesson - Nursing Interventions - and answer the following question.
