Day 3 Class Prep Assignment

7. The pulse point in the neck is called? **D**
- a. Neck pulse
 - b. Dorsalis pedis
 - c. Femoral
 - d. Carotid**
8. The top number of the blood pressure reading is called? **A**
- a. Systolic**
 - b. Systemic
 - c. Selective
 - d. Symmetrical
9. The bottom number of the blood pressure is called? **D**
- a. Diabolic
 - b. Distilled
 - c. Diabetic
 - d. Diastolic**
10. Respirations is the process of breathing in oxygen and expelling carbon dioxide.
- a. Air, helium
 - b. Oxygen, carbon dioxide**
 - c. Oxygen, air
 - d. Water, bubbles
11. A pulse rate of 52 beats per minute is considered? **D**
- a. Tachycardia
 - b. Tachypnea
 - c. Apnea
 - d. Bradycardia**
12. Vital signs re normally taken when the person is? **C**
- a. Standing only
 - b. Lying down only
 - c. Sitting or lying down**
 - d. Sleeping

Day 3 Class Prep Assignment

13. Your patient has a rectal temperature of 95.6. This is considered? **A**
Normal range would range from 96.8-100.4F.
- a. Out of normal range
 - b. Within normal range
 - c. Abnormal
 - d. Hyperthermia
14. What is the **most** common site for taking a pulse in an adult? **A**
- a. Radial
 - b. Brachial
 - c. Pedal
 - d. Carotid
15. Which pulse rate would be of greatest concern for an adult? **B**
- a. 62
 - b. 48
 - c. 80
 - d. 74
16. What artery is used to measure blood pressure? **D**
- a. Carotid
 - b. Radial
 - c. Femoral
 - d. Brachial
17. All of the following factors tend to increase blood pressure, **EXCEPT?** **A**
- a. Sleeping
 - b. Stress
 - c. Pain
 - d. Exercise
18. Your patient has a blood pressure of 80/56, this is considered? **C**
- a. Hypertension
 - b. Hypocardia
 - c. Hypotension
 - d. Hypercardia
