

Module Report

Tutorial: The Communicator 2.0

Module: Video Interaction: Aging client

Individual Name: Alex Brzozowski

Institution: Margaret H Rollins SON at Beebe Medical Center

Program Type: Diploma

Time Use and Score			
	Date/Time	Time	Score
Video Interaction: Aging client	9/13/2024 9:42:05 PM	8 min	60%

Stage 1 (2 of 2 Correct)	
Scenario	Case management nurse Darcy and student nurse Jamie are visiting with Mr. and Mrs. Silver.
Character	Nina Stein
Selected Option/ Result	"Tell me what is concerning you most." Result: Correct
Rationale	Open-ended questions are a therapeutic communication technique because they allow the client to direct the conversation and verbalize related thoughts and concerns.
Character	Steve Silver
Selected Option/ Result	"I will explain everything that is in the papers." Result: Correct
Rationale	Reflection is a therapeutic communication technique because it directs questions and feelings back to the client in relation to what the nurse understood and heard, while encouraging the client to explore feelings and ideas about a situation.
Stage 2 (1 of 2 Correct)	
Scenario	Case management nurse Darcy is meeting with healthcare team members regarding Mr. and Mrs. Silver's transfer to the skilled unit.
Character	AP Trudy
Selected Option/ Result	"We need to involve their daughter in all decisions about their care, so could you go invite her to meet with us?" Result: Correct

Rationale	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.	
Character	Student nurse Jamie	
Selected Option/ Result	"Mrs. Silver's daughter should remind her when she forgets."	Result: Incorrect
Rationale	Passive-aggressive communication is an ineffective style of interpersonal communication because the nurse indirectly expresses negative and manipulative behaviors to create conflict that makes other individuals appear wrong or incompetent.	
Stage 3 (1 of 2 Correct)		
Scenario	Nurse Darcy is discussing Mr. Silver and Nina's concerns about the transfer.	
Character	Nina Stein	
Selected Option/ Result	"Why do you think your mother is acting differently since the transfer?"	Result: Incorrect
Rationale	Asking a "why" question is a nontherapeutic communication technique because it can be perceived as accusatory, causing the client to become defensive and mistrust the person who asked the question.	
Character	Steve Silver	
Selected Option/ Result	"When did she start acting differently?"	Result: Correct
Rationale	Focused questions are a therapeutic communication technique because they allow the nurse to clarify a message, collect data, encourage feedback, and confirm the client's ideas and beliefs.	
Stage 4 (2 of 2 Correct)		
Scenario	Mr. and Mrs. Silver are not receiving the requested foods in the skilled facility.	
Character	Aide Tim	
Selected Option/ Result	"I'll meet with the dietitian to discuss this issue."	Result: Correct
Rationale	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.	
Character	Steve Silver	
Selected Option/ Result	"Tell us more about the foods that are appropriate for your diet."	Result: Correct

Rationale	Open-ended questions are a therapeutic communication technique because they allow the client to direct the conversation and verbalize related thoughts and concerns.	
Stage 5 (0 of 2 Correct)		
Scenario	Nurse Darcy has a care conference to discuss Mrs. Silver's care.	
Character	Nina Stein	
Selected Option/ Result	"Your father's concerns are normal. Just give him some time to adapt."	Result: Incorrect
Rationale	False reassurance is a nontherapeutic communication technique because it discourages open communication, blocks the client's ability to express feelings, and is not based on facts.	
Character	Steve Silver	
Selected Option/ Result	"Are you afraid to be alone?"	Result: Incorrect
Rationale	Asking a closed-ended question is a non-therapeutic communication technique because it does not allow the client to express what he is thinking or how he is feeling.
