

# Module Report

Tutorial: Engage Pediatrics RN

Module: Immune System

Individual Name: **Marisol Azar**

Institution: **Margaret H Rollins SON at Beebe Medical Center**

Program Type: **Diploma**

## Overview Of Most Recent Use

	Date	Time Use	Score
LESSON	11/20/2024	43 min 8 sec	N/A
EHR Chart	N/A	N/A	N/A

## Lesson Information:

### Lesson - History

Total Time Use: 44 min			
	Date/Time (ET)	Time Use	EHR Status
Lesson	11/20/2024 6:28:24 PM	43 min 8 sec	N/A
Lesson	11/20/2024 5:44:11 PM	0 min 28 sec	N/A

Instructor feedback can be viewed by accessing the link on the online version of this report. If your instructor has enabled the EHR Expert Chart, you may view the example in the enclosed page

## Engage Pediatrics EHR Expert Chart Hayden Bernstein

*This expert chart is intended to assist in evaluating student performance in documentation for this activity. Only the tabs and tables of the chart that warrant entries are included.*

Hayden Bernstein

**Sex assigned at birth:** Female

**MRN:** 13965848

**DOB/Age:** 8 years

**Attending:** Naomi Patrick, MD

**Height:** 122 cm

**Allergies:** none

**Weight:** 23.6 kg

**Code Status:** Full code

**Comments:** none

### Patient Education

Patient Education Documentation	Result
Education Provided/ Reinforced	<ul style="list-style-type: none"><li>• Methotrexate is a disease-modifying antirheumatic drug, or DMARD, used to treat rheumatoid arthritis, or RA.</li><li>• Methotrexate helps to reduce joint inflammation, pain, and swelling.</li><li>• Methotrexate is often used as a primary treatment for RA and can be effective in slowing down the progression of the disease and preserving joint function.</li><li>• Common side effects of methotrexate can include nausea, vomiting, diarrhea, and loss of appetite. Serious side effects may include liver toxicity, bone marrow suppression, lung toxicity, and skin reactions.</li><li>• Report any unusual or severe side effects to your child's provider.</li><li>• Your child will be scheduled for blood tests to monitor liver function, kidney function, and blood cell counts.</li><li>• It is important to keep scheduled appointments and promptly report any concerns and new or unusual symptoms to the provider.</li></ul>
