Stage 1 (1 of 2 Correct)		
Scenario	Case management nurse Darcy and student nurse Jamie are visiting with Mr. and Mrs. Silver.	
Character	Nina Stein	
Selected Option/ Result	"Tell me what is concerning you most."	Result: Correct
Rationale	Open-ended questions are a therapeutic communication technique because they allow the client to direct the conversation and verbalize related thoughts and concerns.	
Character	Steve Silver	
Selected Option/ Result	"It will be okay. I will read the information to you."	Result: Incorrect
Rationale	False reassurance is a nontherapeutic communication technique because it discourages open communication, blocks the client's ability to express feelings, and is not based on facts.	
Stage 2 (2 of 2 Correct)		
Scenario	Case management nurse Darcy is meeting with healthcare team members regarding Mr. and Mrs. Silver's transfer to the skilled unit.	
Character	AP Trudy	
Selected Option/ Result	"We need to involve their daughter in all decisions about their care, so could you go invite her to meet with us?"	Result: Correct
Rationale	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.	

Character	Student nurse Jamie	
Selected Option/ Result	"We need to continue to remind Mrs. Silver of the move."	Result: Correct
Rationale	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.	
Stage 3 (2 of 2 Correct)		
Scenario	Nurse Darcy is discussing Mr. Silver and Nina's concerns about the transfer.	
Character	Nina Stein	
Selected Option/ Result	"You're telling me that you feel your mother's behavior is a result of the transfer?"	Result: Correct
Rationale	Paraphrasing is a therapeutic communication technique because it allows the nurse to restate information provided by the client to determine whether or not the communication is mutually understood.	
Character	Steve Silver	
Selected Option/ Result	"When did she start acting differently?"	Result: Correct
Rationale	Focused questions are a therapeutic communication technique because they allow the nurse to clarify a message, collect data, encourage feedback, and confirm the client's ideas and beliefs.	
Stage 4 (2 of 2 Correct)		
Scenario	Mr. and Mrs. Silver are not receiving the requested foods in the skilled facility.	
Character	Aide Tim	
Selected Option/ Result	"I'll meet with the dietitian to discuss this issue."	Result: Correct
Rationale	Assertive communication is an effective style of interpersonal communication because the nurse uses a combination of honesty and tactfulness to ensure the rights of self and others.	
Character	Steve Silver	
Selected Option/ Result	"Tell us more about the foods that are appropriate for your diet."	Result: Correct
Rationale	Open-ended questions are a therapeutic communication technique because they allow the client to direct the conversation and verbalize related thoughts and concerns.	

Stage 5 (1 of 2 Correct)		
Scenario	Nurse Darcy has a care conference to discuss Mrs. Silver's care.	
Character	Nina Stein	
Selected Option/ Result	"I hear you say that your father is tired and that you're concerned about your mother's safety, but you want to know about other options."	Result: Correct
Rationale	Exploration is a therapeutic communication technique because it encourages the client to delve deeper into a topic or issue of concern.	
Character	Steve Silver	
Selected Option/ Result	"I understand how difficult this is for you."	Result: Incorrect
Rationale	Automatic and stereotypical comments are nontherapeutic communication technique because the use of clichés minimizes the client's importance and concerns.
